Japan is a group of islands in the south east of Asia. It is not a very big country but it has a large population. Tokyo is the capital city. The sea is important for the Japanese. They cultivate pearls in the warm water around the islands. They also grow rice and vegetables. Japan is mainly an industrial country. The Japanese are very polite and active people. They work hard. They even don't like holidays. They love flowers and they welcome their visitors warmly. Old Japanese usually wear traditional clothes called kimonos. The Japanese don't sit on chairs when they eat; they kneel on the floor. They don't use knives, forks or spoons. They use wooden chopsticks. Their favourite food is raw fish and rice.

The Japanese writing is very strange. It has no alphabet as in Arabic or English. It has a system of pictures and their writing goes from top to bottom. Japan is a good model of a modern country.
