VI- Reading Comprehension (110 Marks)

Read the following passage carefully, and then answer the questions below:

With over 10 million followers on social media, SHEIN is one of the most popular fast fashion shopping websites. **Launched** in Nanjing, Singapore, in 2008, SHEIN has been known for being the first stop for stylish and affordable clothing since it started. This new company is worth 100 billion dollars that would make it one of the most valuable startups in the world. But what makes SHEIN fascinating is that it represents the best and worst aspects of the fast fashion industry.

SHEIN has become very successful by offering a wide range of styles to suit every taste and every budget. Every single day, SHEIN adds 6,000 new styles to its website – an amazing number. They can do this by outsourcing design. This means they pay other companies to make the designs for them. As items begin selling, they place larger orders with these companies for cheaper prices. Also, they study online trends to predict, or guess, which new styles might become popular; they then place orders early. Finally, they avoid the costs and the time-wasting of container shipping by sending purchased items directly to the customer by mail. For marketing, SHEIN uses social media platforms, like Instagram, Facebook and Tik Tok to promote its products to a wide audience. Influencers market their products on social media. They show them off to generate interest and increase sales.

However, SHEIN has also faced a lot of criticism. Customers often complain about the poor quality of their clothing. In addition, some clothing items, such as children's pajamas are made from materials **that** can easily catch fire and seem not to meet safety standards. SHEIN has been criticised for its labor practices. The workers interviewed said they typically arrive at work at 8:00 am and go home around 10:30 pm. SHEIN has also been accused of using underage workers. Moreover, SHEIN has a problem with its environmental impact. Its products are packed in plastic and fast fashion creates a lot of trash. SHEIN has also been accused of stealing designs.

Despite the criticism, SHEIN remains a popular shopping destination for many people. SHEIN plans to continue expanding in the future. It has already grown to include pet products and household goods. People have been comparing SHEIN to Zara, but it could become more like Amazon. SHEIN aims to become a go-to online retail location for all things fashion, beauty, and lifestyle.
