VI. READING COMPREHENSION (20 MARKS)

Read the following passage, and then answer the questions below:

You need to make dinner, but don't have any fresh vegetables. So you go to the freezer and take out some frozen food. John Birdseye was a person who loved nature and animals. He went to the north of Canada with his family to work there.

John used to go fishing with some Inuit (people of northern Canada) people. They went fishing and caught a fish; it quickly froze because the air was so cold. John asked them, "Are we going to eat this fish today?" The Inuit replied, "No, we already have fish for a month." John didn't understand. How could fish stay for a month and not go bad? Then he got the idea! When you freeze fish in cold air fast enough, it doesn't change its taste. He tried this new idea on vegetables.

He returned to the United States and worked in a fish company. He started to try out the quick-freezing method he learned in Canada. Later, he started a company called Birdseye Seafood. It sold numerous frozen foods such as fish, meat and vegetables. Birdseye made a great change in the American eating lifestyle. (190 words)

A) Choose the right answer from a, b, c and d: (4 x 2 ½ = 10)

23. The **best title** for the passage is.....
- | | |
