Introduction: There is no doubt that migration is very important
topic to many people

Body1: Some people think that it is a paradise for the:
immigrants, The Advantage of Migration

getting well-paid jobs -finding better life conditions-
learning new culture - -
making new friends

Body 2: Some people think that migration is a health
experience, The disadvantages of Migration

Not copying with new culture losing -
identity
Facing difficulty learning the new language -
and lonely
-

Conclusion: I prefer to stay at home -

There is no doubt that migration is very important topic many people. Migration is a phenomenon of moving a person or a group of people from the place where they reside to another place in order to stay there for a long time. Some people think that it is a paradise for the immigrants. They are thinking of migration as it has many disadvantages. As for the Advantages of migration. Some people emigrate to find better life conditions. Others try to learn new languages and to know more information's about other nations cultures. Some people .try making new friends

On the other side some people think that migration is a health experience because it has disadvantages. Migration causes over population in the country to which migrate and migrants take some jobs of local people causing unemployment. Some people might find difficulties copying with new cultures. They might lose their identity feeling homesick and lonely. Migrants .also suffer from the cultural differences

In my opinion, migration is a double edged weapon the mother country suffers from overcrowding in the population and a significant rise in unemployment rates. Migration leads to the solution of this problem, but it leads to another problem which is the migration of educated and bright minds, the migration leads to the delay in the scientific and economic aspects. Prefer to .stay at home
