B. Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Robots are special machines. Some robots are used to make things. For example, they can help in making cars. Some robots are used to explore dangerous places like volcanoes. Others are used to clean things like your house. Some robots can even understand words. They can be used in answering telephone calls.

Long ago, people imagined robots. But they were not real. Nobody was able to make a real robot. Until the first real robot was made in 1961. It was called Unimate. It was used to help make cars. It looked like a **giant** arm. Then the shape changed with time into a smaller one, until it became like a human.

In the future, we will have even more robots. They will do things that we cannot do. Or they will do things that we don't want to do. Also, they will do things that are too dangerous for us. Robots will help us put out fires and win wars. Robots will help us cure many diseases. **They** will help us discover new things and make life better.
