B. Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

The bell rang. Our teacher had just finished explaining the lesson to the class. Before he could say another word, some of the students stood up. They were ready to head to the canteen quickly. Our teacher told them, "There isn't any need to run. Stay calm. There's much food and time for you to have during your break."

However, once he got out of class, the boys started running and pushing each other down the stairs. There was a lot of pushing, and laughing. Suddenly, there was a loud scream. One of the boys in front missed a step and fell off the stairs. He landed hard on the ground.

The boy had a broken arm and was crying out of pain. His friends quickly helped him up. The teacher called for an ambulance using his phone. While waiting for it, the other boys in the group were talking about the accident. They knew why their teacher asked them not to run on the stairs. Then the teacher said, "Let this be a lesson to you." The injured boy was then taken to the hospital. After one week, he returned back to school with a plaster on his arm. We all felt sorry for him.
