The dictionary is the most important tool for all language learners. It gives them the different meanings and spellings of words. Most dictionaries help to pronounce words correctly by providing pronunciation and phonetic symbols. Moreover, they show the learners how to use the words correctly by giving them examples in meaningful sentences.

When you find a new word in a comprehension passage, it is not a good way to think directly of using the dictionary all the time to know its meaning. It is better for you to try first to understand the main idea of the passage and guess its meaning. Second, don't forget to look at the opposite of the word and try to <u>remember</u> it. If these two ways are not helpful, get the dictionary then and look it up.

Some books have a mini-dictionary at <u>their</u> backs. The electronic dictionaries are the <u>latest</u>. They have more advantages than the printed ones because they are easy to download and carry, you can take them with you everywhere and listen clearly to the correct way of pronouncing words.
