 Writing

"Social media has become a huge part of everyday life"

Plan and write composition of two paragraphs (not less than 10 sentences) about (Social Media) explaining the advantages and the disadvantages of using social media.

NB: (Your writing should include a topic sentence, supporting details and a conclusion)

Social media has become a huge part of everyday life. The true beauty of social media is that it allows people to connect. Social media is a new form of entertainment, and the majority of people use social media to pass the time. It is also a great place to receive the most up-to-date information and news. The big advantage of social media is you can earn a good income from it, by learning digital marketing for example.

On the other hand, one of the worst aspects of social media is that it reduces the ability to communicate face to face. Most people who use it so much become addicted to it. Which can lead to many diseases and health issues. Also, spending too much time on social media is a waste of time. After all, when you're using it correctly, it helps making your life easier instead of taking over it.

(B) Reading Comprehension الاستيعاب

Read the following passage, then answer the questions below: اقرأ النص ثم أجب عن الأسئلة:

In England, many parents think that it is important to teach their children how to swim. They think swimming makes them more respected and stronger among their friends. They usually take them to public swimming pools or sports clubs on holidays.

One often sees that parents are always anxious about this issue. They are trying to force their frightened children to swim. I believe that pushing the little child to water can be a big mistake. As I see, parents commit another mistake which is to give children a rubber ring or wings to help them. When a child uses these things, he/she has a feeling that swimming is a hard task to do. This makes the child think it is dangerous to get his/her head under water.

When my children were young, we usually spent the weekends in mountains where there was a circular water tank. It was about two metres deep. I let them swim there. I never gave them rubber rings or water wings while they were in water. My eldest son began to jump into the tank. Soon, his brother and sister got used to water.

A) Choose the correct answer from a, b, c and d: اختر الإجابة الصحيحة:
