Reading Comprehension

Read the following passage then answer the questions below:

In England, many parents think that they must teach their children how to swim to make them more respected and stronger among their friends. They usually take them to public swimming pools or sports clubs on holidays.

One often sees parents anxious trying to force their **frightened** children to swim. I believe that pushing the little child to water can be a big mistake. Parents commit another mistake which is to give children a rubber ring or wings to help them. This makes the child think that it is dangerous to get his / her head under water.

When my children were young, we usually spent the weekends in mountains where there was a circular water tank. It was about two metres deep. I let **them** swim there. I never gave them rubber rings or water wings while they were in water. My eldest son began to jump into the tank. Soon, his brother and sister got used to water and did the same thing.

**Reading Comprehension**

**Read the following passage, then answer the questions below:**

Fasting is part of the practices of many religions including, Islam, Judaism and Christianity. Today many are trying to dig up the benefits of fasting. Some people fast for spiritual reasons while others fast as a way to physically discipline the body. Whatever reasons one might come up with, it has been scientifically proved that fasting has tremendous health, spiritual and physical benefits.

It is known that fasting helps **eliminate** or neutralize toxins through the colon, liver, kidneys, lungs and skin. It leads to the cleansing of the whole body. The healing process can be noticed clearly in the body during a fast. Besides, dangerous diseases such as cancer do not have the full support of the body's supplies when fasting.

In addition to these physical benefits of fasting, it helps people to feel the needy ones and support **them** by giving money and food. It is one of the blessings of Islam to fast in the Holy month of Ramadan. As it is the fourth pillar of Islam, Muslims have to fast from the dawn till sunset. It is a good opportunity to purify one's soul and emotions. It enables people to get rid of their bad desires. That helps spread love, peace, co-operation and sacrifice among people in any community.

## Reading Comprehension

### Read the following passage then answer the questions below:

No wonder that salt has many uses in our life. It is added to food, pickle and fish. It is also used to preserve some types of food. Many people prefer salty dishes than sweet ones. Despite the bad side effects of adding salt randomly or too much in some dishes, still many people like it. But have you ever asked yourself about the time and place where it was first discovered and used?

In fact, we don't know when man first began to use salt, but we do know that it has been used in many different ways throughout the history. People who lived over 3000 years ago ate salted fish. Thousands of years ago in Egypt, salt was used to **embalm** the dead. Stealing salt was considered a major crime during some periods of history.

In the 18th century, for instance, if a person was caught stealing salt, he could be put in jail. About 150 years ago, taking more salt than once was considered a crime. The criminal's ear was cut off as a punishment for the crime he has committed. In the Roman Empire, one of the most important roads was the one that carried salt from the salt mines to Rome. Guards were kept along the route to protect it against **its** thieves.

In the early days in the USA, salt was scarce. So, the store-keeper was very careful with his salt. As he poured out salt for his customers, he did not like anyone to cross the floor of the store.

Reading Comprehension

Read the following passage then answer the questions below:

Many animals die out nowadays. Polar bears will be extinct by the end of the 21<sup>st</sup> century if the global warming continues. Temperatures are rising in the Arctic. It is the only place where polar bears are found. This change of nature is having a strong effect on the health and numbers of the world's population of polar bears.

During the winter, polar bears live and hunt on the sea ice. **They** travel for many kilometers to catch their main food, which is the seal. Through the ice, they can feel the movement of a seal. They sit close to a hole in the ice and wait for the seal to come up for air. In summer, as the ice melts, some bears return to the shore, fasting until the colder weather and sea ice returns. Others continue to hunt. They swim in the icy water until they reach floating sea ice where they can wait for a seal. Bears who have been fasting all summer weigh less and are weak. They have lost too much of their fat, which is needed to keep them warm and as a source of energy.

Global warming has **increased** the temperature in the Arctic so much that the warmer weather comes sooner each year and it lasts longer. It has been predicted that by the end of this century there will be no sea ice left. As the temperature continues to rise, the cold winter will be much shorter.

Reading Comprehension

Read the following passage then answer the questions below:

Fast food restaurants are almost everywhere in big city. In some places you can stand in a line and get a beef burger in a paper bag, in others you can pick up a tray of fish, chicken, pizza or even Mexican or Chinese food and in some fast food places you can even drive your car up to a window and wait for your turn to get your order. A few minutes later, a worker passes you the food through the window and you can drive away and eat it in your car.

In many big cities all over the world, fast food restaurants are open every day. But why do people prefer fast food restaurants to more comfortable restaurants where you can sit quietly at a table and watch the world go by?! There are many reasons make fast food restaurants popular. **They** are the speed and price. People's time is valuable. They do not want to waste a lot of time eating or preparing food. The prices are inexpensive as well. Because of large numbers of meals sold everyday costs are kept low.
