.....
.....
.....
.....
.....

Paragraph 2:

.....
.....
.....
.....
.....

Conclusion:

.....
.....

VI- Reading Comprehension (110 Marks)

110

Read the following passage carefully, then answer the questions that follow:

Elon Musk is a name that you've probably heard before. He's one of the most famous and innovative people in the world. Born in South Africa in 1971, he became a prominent businessman and technologist attracting global attention with his remarkable achievements. His journey from humble beginnings to becoming one of the most renowned and innovative individuals of our time is incredibly motivating, serving as a shining example to follow.

One of Musk's most well-known companies is Tesla. Tesla makes electric cars which are special because they run on electricity, not petrol. This is good for the environment because they reduce air pollution, emissions, and our dependence on fossil fuels. Musk wanted to make electric cars popular, and he did that with Tesla. People love Tesla cars for **their** speed and high-tech features. Another big project of Musk's is SpaceX. SpaceX is all about going to space. Musk believes that humans should become a multi-planetary species, which means living on other planets like Mars. SpaceX builds rockets to take people and cargo into space. They have big plans to send people to Mars one day.

Musk also started a company called "The Boring Company". It was initially established in Hawthorne, California. It's not **tedious** or dull at all! This company is all about building tunnels underground to help with traffic problems in big cities. Imagine travelling in a tunnel at super-fast speeds to beat traffic jams. That's what Musk wants to do!

Musk even started a company called SolarCity, which focuses on solar energy. Solar panels on rooftops can turn sunlight into electricity, and that's good for our planet. Musk's interest in clean energy extends to powering our homes and cars. He is a dreamer and a man of action, known for thinking about exciting things and then working hard to turn them into reality. Musk's extraordinary efforts demonstrate his determination and creativity. That's why he serves as an inspiration to many.

Elon Musk is a brilliant businessman who's making the world a better place through his companies. He's helping us move towards a future with clean energy, exploring the space, and finding innovative solutions to everyday problems. Elon Musk's goals and determination continue to inspire people all around the world.

.....
.....

VII- Summary Making (60 Marks)

60

-Read the following passage and do as required:

In today's digital age, children's unnecessary use of mobiles is a big problem, demanding effective solutions for a balanced upbringing. To tackle this challenge, there are several key solutions that parents can employ. Firstly, setting screen time limits can help manage children's device usage. Additionally, encouraging outdoor activities provides an alternative to screens. Furthermore, setting up specific areas in your home where no technology is allowed can promote face-to-face communication. Lastly, parents can use technology potentials to guide children towards useful educational content. These solutions are undoubtedly important in helping children make balance between digital and real-world experiences.
