Reading Comprehension

Read the following passage carefully, then answer the questions that follow:

Dreams are fascinating. You can have nice ones, realistic ones or those that are scary, strange or imaginary. They occur as you sleep and generally become more vivid as the sleep stage progresses. Sometimes you can't remember a dream; others may be unclear while there are some that can be closely recalled because they are so intense. These are what we call Vivid Dreams.

So, have you experienced any vivid dreams? Social media and online forums are crammed with stories of vivid dreams. Experts are claiming that there is a lot of truth in this phenomenon. People are sleeping longer and this allows more time for dreaming. In addition, the more boring your life is, the more your night time brain activity tries to **recompense** and the more exciting your dreams become.

However, what do those dreams mean? Experts decline and refuse that dreams can predict events, but they can help us understand our feelings. The events in dreams are symbolic. For example, missing that train might indicate that you are feeling left behind, or simply that you are nervous. Walking on air shows your feeling of being impossible to be defeated. If you dream that your teeth are falling out, you have bitten off more than you can chew. Slow down and do less! Dreaming of natural disasters – earthquakes, tsunamis and volcanic eruptions can be intense and terrifying. They show that you are feeling frightened by events out of your control.

It is worthwhile to try and discover the meaning of your dreams, as this can help you understand your feelings. One way to do this is by association. If you dream about people, ask: what does this person mean to me? If you dream about birds, for example, think: do you love **them** or do they make you nervous? Some people claim they never dream; well, they do, but they just forget. You may try to recall your dreams, but they will not tell you anything important as experts approved.

A-From a, b, c and d choose the correct answer:

1-What is the best title for the passage?

- a-Real Life
- b-Long Days
- c-Natural Disasters
- d-Fascinating Dreams

- d-to give in return for something lost

3-The underlined word “them” in the 4th paragraph refers to:

- a-birds
- b-people
- c-dreams
- d-feelings

4-According to the passage, what does dreaming of natural disasters reflect?

- a-The person feels capable of doing anything.
- b-The person might be neglected or left behind.
- c-The person tried something which is too difficult to achieve.
- d-The person is feeling frightened of events out of his control.

5-All of the following statements are NOT TRUE EXCEPT:

- a-Dreams can help understand people’s feelings.
- b-People can usually recall all their dreams accurately.
- c-People can decide the kind of dreams they like to have.
- d-Anybody can understand dreams and know what they mean.

6-What is the purpose of the writer in writing this passage?

- a-To compare two types of sleeping habits.
- b-To describe a dream he has had before forgetting it.
- c-To inform the readers about dreams; how and why they occur.
- d-To persuade the readers to sleep more to experience vivid dreams.

B- Answer the following questions:

7-Why are some people having vivid dreams?

.....
.....

8-What might happen if you try to recall your dreams?

SUMMARY MAKING

Read the following passage, then do as required:

Experts agree that long-term exposure to high levels of noise pollution affects our health in many ways. Some researchers have documented that regular exposure to noise above 110 decibels can result in permanent hearing loss. Other several studies have also demonstrated a link between noise and digestive problems and immune system disorders. Moreover, in a paper published in a medical journal, it was determined that loud noises lead to elevated blood pressure, fatigue and loss of sleep. Ultimately, some university researchers noticed that stress caused by noise can lead to serious heart problems.

Reading Comprehension

Read the following passage carefully, then answer the questions below:

If you have been reading fairy stories, you may believe that all wolves are harmful, and evil. They eat children, sheep and other small animals. They are aggressive and won't stop until they get what they want. There really isn't anything good to say about wolves. Or is there? Are wolves just misunderstood?

Wolves are actually nothing like the characters described in fairy stories. While it is true that their diet consists of deer, rabbits, and other small animals, wolves would never attack a child just for the sake of eating. Wolves have been known to attack people when they threaten them. This happens only rarely. Wolves are usually pretty shy animals. **They** stay within their own land and protect their own pack(group).

Wolves are meat eaters, and they must hunt to get their food. They are strong and fast and have sharp teeth. They use their sense of smell to find prey. Wolves hunt in packs and chase their prey until it gets tired. They usually hunt the weakest, slowest animal in a group. Wolves are not cruel; they are just good hunters.

Some wolves, such as the red wolf, are near **extinction**. Their homes are steadily disappearing as people spread their own homes further into the wilderness. Wolves have also been hunted extensively. Ranchers and farmers pose another threat to wolves. They become angry when wolves come onto their property and eat their chickens and sheep. This is a serious problem, because the farmers lose their animals, and the wolves get shot by the angry farmers. No one wins in this battle.

Wolves are an important part of the balance of nature. They hunt weak animals and help keep down the population of some animals such as deer. In many countries, it is now against the law to hunt wolves. Many zoos and scientists are working hard to protect wolves, because they understand just how important and misunderstood they are.

SUMMARY MAKING

Read the following passage, then do as required:

The tiger is the largest of all the cats. This wild mammal is found in some remote forests and rainforests in East Asia. At present, the tiger is an endangered species in the wild. There are many things we might do to save this animal. Tigers would survive if we stopped cutting the rainforests where they live. Creating natural reserves for this rare animal is another step that can help. Also, if biologists took care of the existing tigers, they would protect them. And if we all stopped illegal tiger trading, hunters wouldn't kill them. If we took these actions, the situation of this species would become better, and tigers wouldn't be in danger of extinction.

In FOUR sentences, summarize and paraphrase the previous passage in answer to the following question:

What can we do to save tigers from extinction?
