VI- READING COMPREHENSION (20 MARKS)

- Read the following passage carefully, then answer the questions below

People always worry about the danger of smoking on smokers, forgetting that smoking is just as dangerous to non-smokers. Doctors have found out that the smoke from tobacco can cause cancer and other killing diseases. People who do not smoke but are passive smokers because they have to spend a great deal of time in the same place with smokers are in danger as well.

Thus, researches have shown that healthy non-smokers who are married to, or are children of, or work for a long time with smokers risk their health without being aware of it. They suffer from complaints with their noses, throat and lungs. Moreover, they can easily have allergies. The babies of such parents are smaller in size and their lungs do not grow as big as those of other children's as they grow up.

No wonder then that more people are asking for smoking to be forbidden in public places and at work. In fact, many hotels and restaurants overseas now offer non-smoking areas or rooms to protect those who do not smoke. Furthermore, some countries are planning to have a non-smoking land in 10 years.

In 2013, Kuwait issued a blanket ban on smoking in public places including hotels, restaurants and cafes. The minister of health also banned smoking in shopping malls, schools, universities, hospitals, airports and sports clubs. The aim of this ban is to protect public health.
