**Read the following text carefully then answer the question below:**

It's not hard to see why cheeseburgers, fries, pizza, and ice cream are popular. They're delicious! But not everything that tastes good is good for you. The next time you want to enjoy a snack, you may consider smart snack choices.

Nearly everyone loves french fries made from potatoes. Did you know that other root vegetables taste great, too? Root vegetables can be a good and healthier choice for a smart snack . They include beets, carrots, and sweet potatoes. Root vegetables are easy to grow. They need loose soil and cool weather. They contain important vitamins and minerals, and they can all do the jobs a potato can do. Carrots are satisfying and crunchy if they are raw. Cooked beets and sweet potatoes are flavorful. To enjoy these vegetables, you need to peel their skin with a knife and cut them into strips, just like fries. They can be served hot or cold in a variety of dishes from sandwiches to salads and even juices. When we cook beets and sweet potatoes, they become sweeter. Give them a try! You'll forget all about french fries.

Discovering new foods can be fun. Plus, if you eat healthful foods, you'll be less likely to get sick. You'll also have more energy to run and play. You will also be able to think more clearly and for longer periods of time. So start eating smart snacks! (Word count 234)
