VI- Reading Comprehension: (110 Marks)

Read the following passage carefully, then answer the questions below:

Fish has been an important food source for people all over the world. It is high in proteins, low in fat, and has many essential vitamins. However, these days, getting fish from the ocean may be damaging both the ocean and its future. Ocean fishing now is a big business, so fishing companies want to get as much fish as possible from the ocean. However, **their** methods, such as overfishing, fish farming, and bottom searching, are threats to our oceans.

Overfishing is a major threat. It happens when modern, technologically advanced ships hunt for fish. With the equipment on board, these ships can immediately find groups of fish and get them all. In fact, these ships remove fish from the ocean faster than the ocean can replace them. Another problem with overfishing is that the nets catch more than fish; they trap whales, dolphins, and even birds, which are then destroyed.

A fish farm is where large numbers of fish are raised for food. Some people think that fish farming is the answer to overfishing in the ocean. However, fish farming is also damaging the ocean. For example, a typical salmon farm raises thousands of fish. To feed these fish, other, smaller fish are removed from the ocean in huge quantities. In fact, it **requires** five pounds of ocean fish to produce one pound of salmon. It's clear that fish farming is not the answer.

Bottom searching is a term that describes catching fish at the bottom of the ocean. This happens when ships lower huge nets to the bottom of the ocean. The nets have wheels, which destroy everything they run over. The nets take everything, including many poisonous creatures that cannot be eaten. Moreover, the balance of diverse life that lives there is destroyed. Scientists say that there are still many kinds of undiscovered animals that live there. When they are brought to the surface, many are just thrown away.

In conclusion, our oceans provide us with many benefits, one of which is fish. We need to be careful, however, that our desire for fish doesn't destroy the ocean. Big fishing companies must find alternatives to their practices of overfishing, fish farming, and bottom searching in order to avoid destroying the ocean and running out of the fish we desire.

A) From a, b, and c choose the correct answer: (5 X 10 = 50 marks)

31. People, all over the world, like fish as a source of food because:

- a) It's a big business nowadays.
- b) **It's high in proteins and low in fat.**
- c) Fish live in the ocean in large groups.
- d) It's a good source of income for them.

32. According to the passage, ONE of the following statements is **NOT TRUE**:

- a) Bottom searching is a dangerous way to catch fish.
- b) There are two problems related to overfishing in the oceans.
- c) **Fish farming is the solution to the problem of overfishing.**
- d) To feed salmon in a fishing farm, you need huge amounts of small fish.

B) With reference to the passage, answer the following questions: (4 x 15 = 60 marks)

33. According to the passage, what are the three main methods of catching fish from the ocean?

They are overfishing, fish farming, and bottom searching

34. How does modern technology help in destroying the oceans?

It provides modern advanced fishing ships with advanced equipment that could destroy fish in large quantities.

35. Why can't we eat all what the nets bring from the bottom of the sea?

Because the nets take everything, including many poisonous creatures that cannot be eaten.

36. Why should big fishing companies find new alternative ways for catching fish?

In order to avoid destroying the ocean and running out of the fish we desire.

Any reasonable answer related to the passage is to be accepted

VII- Summary Making: (60 Marks)

Read the following passage, then do as required:

Fruit and vegetables should be an important part of your daily diet. Evidence shows there are significant health benefits to getting at least five portions of a variety of fruit and vegetables every day. First, fruit and vegetables contain many vitamins and minerals that are important for your health. Also, they help reduce the risk of heart diseases such as high blood pressure. In addition, they lower your cholesterol and body fat which helps you maintain a healthy weight. Moreover, fruit and vegetables boost your immune system. It's always recommended to eat fresh fruit and vegetables that are in season.

In a paragraph of four sentences only, summarise and paraphrase the previous passage in answer to the following question:

What are the benefits of eating fruit and vegetables ?

The answer should include the following ideas:

- Contain many vitamins and minerals that are important for health.
- Help reduce the risk of heart diseases such as high blood pressure.
- Lower cholesterol and body fat which helps maintain a healthy weight.
- Boost the immune system and that helps to protect from some diseases.
