Reading Comprehension

Read the Following passage and answer the questions:

Digital communication is the way people share information using electronic devices like smartphones, computers, and tablets. People send messages through emails, social media, and instant messaging apps. It is a fast and easy way to connect with family, friends, and colleagues, no matter where they are in the world. Many businesses also use digital communication to share important news and work updates.

One advantage of digital communication is that it saves time. Instead of waiting for a letter, people can receive messages instantly. However, sometimes messages can be misunderstood because there are no facial expressions or tone of voice. That is why people use emojis and punctuation to show feelings. Digital communication is very useful, but it is important to use it wisely and respectfully.
