

## Social Media

**Social Media is a part of our life today.** Many people are for using social media. We can get information through social media. It helps us to keep in touch with others. We can get jobs using social media.

**Other people are against social media .** They think it can be harmful. It can make you less social. It can waste your time. Finally, social media can be useful if we use it wisely.

## **Smart Phones**

Using smart phones is a part of our daily life. Using smartphones has its advantages and disadvantages. Some people see smartphones as good and useful. Smartphones made it easier and faster to get information. The apps on my smartphone are handy and helpful. Smartphones help us to keep in touch with people.

Other people think that smartphones are bad inventions. They can cause health problems. They can hurt our eyes and back. They can spread bad or wrong information and news. They can waste time if we use them a lot. Finally, smartphones are great if you use them wisely.

## **Communication**

**Communication is a way to exchange information and ideas.** Communication nowadays is different from communication in the past. In the past, people communicated by telling stories. They also communicated by carving and painting on stones. Later ,people communicated by writing .

**Nowadays, communication is faster and easier.** People can get information from the internet. They communicate using smartphones and social media. People use telephones to keep in touch with the world. I think we still need to communicate face to face.

## Stories

**Stories are everywhere.** We can communicate by telling stories. Old people tell stories to the young. Children can learn through stories. Listening to stories is very fun.

**Stories have many benefits in our lives.** Stories can help us understand the world. We can learn morals from stories. Stories can build trust between people. We see the world in a different way through stories. We learn wisdom from stories.

## Creativity

Creativity is using our imagination to make new things. It is a characteristic of humans. Creativity is important to solve problems. It helps people to find jobs and earn money. Creativity makes the world better

There are many ways to be creative. You don't have to create new things. You can change how we do things like operations. You can also put ideas together to be creative like the internet. Also you can find new use for things. To be creative, you come up with ideas and act on them.

## **Inventions**

Inventions have changed our life. They make life easier and faster. They save our time and effort. Inventions make it easy to communicate with people. Nowadays , travelling is faster and easier.

There are many great inventors. TV, cars, planes , phones... are great inventions. Smart phones help us to communicate with people and get information. Willis Carrier invented the AC. Sadeq Qasem invented Alchemist. Steve Jobs invents the Apple. In fact. Inventors have made the world better.
