B- Fill in the spaces with the suitable words from the list: (4 × 1½= 6M)

(renewable / dig up / reward / endangered / create)

05. In old times, people used to **dig up** the ground to find fresh water.
06. Kuwait has built many natural reserves to protect **endangered** rare animals.
07. Scientists **create** new devices to make our life easier and more comfortable.
08. Sun, water and wind are used to generate **renewable** energy by governments.

B. READING COMPREHENSION (16 MARKS)

Read the following passage then answer the questions below:

From far out in space, Earth looks like a blue ball. Since water covers three-fourths of the Earth's surface, blue is the colour we see most. The Earth is shaped like a sphere, or a ball. A spaceship can fly around the widest part of the sphere in only 90 minutes. Even though spaceships have travelled to the Moon, people cannot visit the Moon without special suits. The Moon has no air or water. Plants and animals can't live **there** either. Astronauts first landed on the Moon in 1969. After that, there were six more trips to the Moon. They brought back Moon rocks, which scientists are still studying.

The Sun is the closest star to Earth. A star is a hot ball of burning gas. The Sun looks very big. But the Sun is just a medium-sized star. The burning gases from the Sun are so hot that they warm the Earth. Even though the Sun is always **glowing**, the night here on Earth is dark. That's because the Earth turns around, every 24 hours. During the day, the Earth faces the Sun. Then we see light. During the night, the Earth turns away from the Sun. Then it faces the darkness of space.

A) Choose the correct answer From a, b, c and d: (6x 2= 12 M)

09. The main idea of the 2nd paragraph is:
- a- **A description of the Sun.**
 - b- Darkness of the moon and space.
 - c- The study of rocks on the Moon.
 - d- The trips made by astronauts to the Moon.
10. What does the underlined word "**there**" in the 1st paragraph refer to?
- a- The water
 - b- The sphere
 - c- **The Moon**
 - d- The air
11. What does the underlined word "**glowing**" in the 2nd paragraph mean?
- a- **shining**
 - b- including
 - c- restoring
 - d- behaving

12. The writer wrote this passage to:
- tell us about spaceships
 - explain how the Earth goes around the Sun
 - inform us about the space around us**
 - show the importance of travelling to space
13. Why does Earth look like a blue ball?
- Because water covers three fourths of Earth's surface.**
 - Because Earth is shaped like a blue sphere.
 - Because spaceships can travel to Earth in 90 minutes.
 - Because astronauts landed on it using special ships.
14. All of the following statements are **TRUE** except:
- Many trips were made to the Moon.
 - The sun doesn't glow at night.**
 - Earth turns around every 24 hours.
 - A star is a hot ball of burning gas.

B) Answer the following questions: (2x2= 4 Marks)

15. Why would people die on the Moon?
Because it doesn't have air or water.
16. What did astronauts bring back from the Moon?
They brought back Moon rocks.

II. Writing (30 MARKS)

A. GRAMMAR (11 MARKS)
