Grammar Relative Clauses (defining and non-defining)

English Department Scholastic Year: 2019 / 2020 **Grade 11: Written Work**

Relative clauses are non-essential parts of a sentence. They may add meaning, but if they are removed, the sentence will still function grammatically. There are two broad types of relative clauses in English.

Second Term

DEFINING CLAUSES

A **defining clause** tells us which specific person or thing we are talking about in a larger group of people or things. If a defining relative clause is removed, the meaning of the sentence changes significantly. A defining relative clause is not separated from the rest of the sentence by commas or parentheses.

Examples:

- The woman **who visited me in the hospital** was very kind.
- The umbrella **that I bought last week** is already broken.

NON-DEFINING CLAUSES

Choose the correct answer a, b, c or d:

A non-defining clause gives us more information about the person or thing we are talking about. If a non-

defining relative clause is removed from a sentence, we lose some detail, but the overall meaning of the
sentence remains the same. Non-defining relative clauses are always set off from the rest of the sentence witl
commas or parentheses.
Examples:
- The author, who graduated from the same university I did, gave a wonderful presentation.
- My mother, who is 86 , lives in Paris.

1. My uncle,	has jus	t come from Lond	on, is very ric	h.

Collective Nouns

A collective noun is used to refer to an entire group of persons, animals or things; it therefore includes more than one member.

Examples:

- People: class, family, group, staff

- Animals: flock, herd

- Things: bunch, collection, pack, set

Singular and plural verbs with collective nouns

A plural collective noun takes a plural verb: Families **enjoy** this restaurant.

A singular collective noun usually takes a singular verb: Our family **enjoys** this restaurant.

When to use a singular verb

When all the members of a collective noun are performing an action as a unit (and that's usually the case), use a singular verb.

Examples:

- The cast **is** celebrating the success of the play with a party after the performance.
- A wolf pack **hunts** as a group.

When to use a plural verb

SUMMARY

Scholastic Year: 2019 / 2020

Second Term

Manners are minor morals. They are everyday way which show our respect to other people and facilitate social relations. They make up the moral fabric of our shared lives. Saying please when we'd like something done is a sign of being so polite. Besides, thanking people when they do us a service shows that we are so grateful. Likewise, holding a door for the person behind us tells a lot about our character. Turning off our cell phones when we're in a group setting indicates that we respect out interlocutors. If we fail to teach these every day habits to our children, we will not prepare them to be socially competent and likable people. When society in general fails to teach manners to the young, it paves the way for the gross violations of civility behaviors rules.

In a paragraph of FOUR sentences, ONLY, summarise and paraphrase the previous passage in an answer to the following question: "What are the polite ways needed for making better social relations?" **SUMMARY** Trees grow mostly in spring and summer, where there is a lot of sunshine every day. We plant trees primarily for their beauty and to provide shade, but they do create many other benefits. Trees can sooth and relax us and help us connect to nature and our surroundings. The colour green is a calming, cool colour that helps our eyes quickly recover from strain. By planting and caring for trees, we help improve our surrounding and reduce pollution. Trees absorb harmful gasses from the air and release oxygen. People cut down trees to make furniture, equipment and paper, but overcutting of trees make our environment dirty and deserted. Without trees, we could potentially suffer because of lack of oxygen and there would be no life. In a paragraph of FOUR sentences, ONLY, summarise and paraphrase the previous passage in an answer to the following question: "What are the benefits of planting trees?"

READING COMPREHENSION

Scholastic Year: 2019 / 2020

Second Term

Read the following text, and then answer the questions below:

Have you ever been to the beach? Did you see a man with a headset pointing a long pole at the ground? If so, you might have seen a person using a metal detector. People use these devices to find metal all the time.

Metal detectors make magnetic waves. These waves go through the ground. The waves change when they hit metal. Then the device beeps. This lets the person with the device know that metal is close and they have to work hard to find it.

The first metal detectors were meant to help miners. They were very big devices. They cost a lot of money. They used a lot of power. And worst of all, they didn't work well. People kept trying to make them better and better through the years.

Metal detectors got smaller. Now they are light and cheap. They also work better. That is why people bring them to the beach. They can look for rings in the water. They can look for phones in the sand. Metal detectors help them find these things. They usually just find **junk** though.

Metal detectors also protect people. They help to keep guns out of some places. They are in airports. They are in courthouses. Some schools use them. They help guards look for weapons. Guards use special wands to find metal on a person.

These devices save lives in other ways too. During wars, people plant bombs in the ground. When the war ends, they don't clean up their messes. This is unsafe for the people who live in those places. Others use metal detectors to find bombs. They remove them and help the people .

These devices also make clothes safer. It sounds funny, but it's true. Most clothes are made in big factories. There are lots of needles in these places. Needles break from time to time. They get stuck in the clothes. <u>They</u> would poke people trying them on. They don't though. That's because our clothes are scanned for metal. Isn't that nice? Let's hear it for metal detectors. They make the world a safer place.

Did you know that some people don't do their reading assignments? It's shocking, but it's true. Some students don't even read short texts that they are assigned in class. There are many reasons for this. They may be distracted or bored. They may be unwilling to focus. They may be unconfident readers. Whatever the reason, it has to stop today. Here's why.

Scholastic Year: 2019 / 2020

Reading stimulates your mind. It is like a workout for your brain. When people get old, their muscles begin to deteriorate. They get weaker and their strength leaves them. Exercise can prevent this loss. The same thing happens to people's brains when they get older. Brain power and speed decline with age. Reading strengthens your brain and prevents these declines.

You can benefit from reading in the near-term too. Reading provides knowledge. Knowledge is power. Therefore, reading can make you a more powerful person. You can learn to do new things by reading. Do you want to make video games? Do you want to design clothing? Reading can teach you all this and more. But you have to get good at reading, and the only way to get good at something is to practice.

Read everything that you can at school, regardless of whether you find it interesting. Reading expands your vocabulary. Even a "boring" text can teach you new words. Having a larger vocabulary will help you better express yourself. You will be able to speak, write, and think more intelligently. What's boring about that?

Do not just discount a text because it is unfamiliar to you. Each time you read, you are exposed to new ideas and perspectives. Reading can change the way that you understand the world. It can give you a broader perspective on things. It can make you worldlier. You can learn how people live in faraway places. You can learn about cultures different from your own.

Reading is good for your state of mind. It has a calming effect. It can lower your stress levels and help you relax. You can escape from your troubles for a moment when you read, and it's a positive escape. The benefits of reading far outweigh those of acting like a **doofus**. So, do yourself a favor: the next time you get a reading assignment, take as much as you can from it. Squeeze it for every drop of knowledge that it contains. Then move on to the next one.
