READING COMPREHENSION

Read the following passage carefully, then answer the questions that follow:

The changing of the seasons is a fascinating natural phenomenon. As the Earth goes around the Sun, different parts of the planet receive different amounts of sunlight throughout the year. This variation causes the seasons to change, each bringing its own unique weather patterns and features.

Spring is the season that follows winter. It is a time when the weather starts to warm up, and the days become longer. Trees and plants begin to grow, and flowers start to appear. Many animals, such as birds and butterflies, return from **their** winter journeys. Spring is often seen as a season of renewal and growth. It's a time when the world seems to come alive after the cold months of winter.

Summer comes after spring and is known for its warm temperatures and long, sunny days. People often go on vacations, have picnics, and spend time outdoors enjoying activities like swimming and hiking. Summer is a popular time for families to travel and **explore** new places. In many areas, summer also brings occasional thunderstorms and heavy rains, which help to keep the environment rich and green.

Autumn, or fall, follows summer and is characterized by cooler temperatures and shorter days. The leaves on trees change color. They turn into red, orange, and yellow before falling to the ground. Autumn is a time for preparing for the coming winter, as animals gather food and people start to use their warm clothing again.

Winter is the final season of the year. It is known for its cold temperatures, and in many places, it brings snow and ice, so people often spend more time indoors. Winter days are shorter. This season is a time for cozy fires and hot drinks. Although it can be chilly, winter also offers beautiful snowy landscapes and opportunities for winter sports like skiing and ice skating.

Each season brings its own special experiences and beauty. As the year progresses, people adapt to the changes in weather and take part in seasonal activities that they enjoy. The cycle of the seasons is a reminder of the changing world around us.

READING COMPREHENSION

Read the following passage carefully, then answer the questions below:

If you have been reading fairy stories, you may believe that all wolves are harmful, and evil. They eat children, sheep and other small animals. They are aggressive and won't stop until they get what they want. There really isn't anything good to say about wolves. Or is there? Are wolves just misunderstood?

Wolves are actually nothing like the characters described in fairy stories. While it is true that their diet consists of deer, rabbits, and other small animals, wolves would never attack a child just for the sake of eating. Wolves have been known to attack people when they threaten them. This happens only rarely. Wolves are usually pretty shy animals. **They** stay within their own land and protect their own pack(group).

Wolves are meat eaters, and they must hunt to get their food. They are strong and fast and have sharp teeth. They use their sense of smell to find prey. Wolves hunt in packs and chase their prey until it gets tired. They usually hunt the weakest, slowest animal in a group. Wolves are not cruel; they are just good hunters.

Some wolves, such as the red wolf, are near **extinction**. Their homes are steadily disappearing as people spread their own homes further into the wilderness. Wolves have also been hunted extensively. Ranchers and farmers pose another threat to wolves. They become angry when wolves come onto their property and eat their chickens and sheep. This is a serious problem, because the farmers lose their animals, and the wolves get shot by the angry farmers. No one wins in this battle.

Wolves are an important part of the balance of nature. They hunt weak animals and help keep down the population of some animals such as deer. In many countries, it is now against the law to hunt wolves. Many zoos and scientists are working hard to protect wolves, because they understand just how important and misunderstood they are.

A-Choose the correct answer from a, b, c and d:

1-A suitable title for the passage is:

- a-Wolves in the Jungle
- b-Wolves in Fairy Stories
- c-The Red Wolf

d-True Facts about Wolves

2-The underlined word "extinction" in the 4th paragraph means:

a-disappearance

- b-creation
- c-formation
- d-installation

3-The underlined word "they" in the 2nd paragraph refers to:

- a-characters
- b-rabbits

c-wolves

d- stories

4-People think that wolves are:

a-harmful and aggressive

- b-small and cute
- c-cooperative and helpful
- d- kind and friendly

5-According to the text, all the following sentences are TRUE except:

a-Wolves attack people in case of a threat

b-Wolves hunt animals for the sake of killing

- c-Wolves are shy animals
- d-Wolves prefer to hunt in groups

6-The purpose of the writer is to:

- a-Show wolves as pure aggressive animals
- b-Explain that wolves are skillful hunters

c-Tell us that wolves are not aggressive by nature

d-Inform us that wolves are strong, fast and have sharp teeth

B- Answer the following questions:

7-How do wolves hunt?

Wolves hunt in packs and chase their prey until it gets tired.

8-Why do farmers and ranchers kill wolves?

Because wolves come onto their property and eat their chickens and sheep

SUMMARY MAKING

Read the following passage, then do as required:

Friendship is an important part of our lives that enriches our experiences in many ways. First, friends offer emotional support during hard times, helping us feel less alone. They also bring joy and laughter, making life more enjoyable. Additionally, friends encourage us to try new activities and step out of our comfort zones, promoting personal growth. Trust is another key aspect of strong friendships, allowing us to feel secure and understood. In conclusion, the bonds we create with our friends shape our experiences and memories.

In a paragraph of FOUR sentences ONLY, summarise and paraphrase the passage above in answer to the following question:

What is the importance of friendship?

First, friends help us when we face problems and support us. Second, they make our lives happier and more meaningful. Third, they help us try new things and grow as people. Finally, our relation with friends affect our lives and memories.

SUMMARY MAKING

Read the following passage, then do as required:

Experts agree that long-term exposure to high levels of noise pollution affects our health in many ways. Some researchers have documented that regular exposure to noise above 110 decibels can result in permanent hearing loss. Other several studies have also demonstrated a link between noise and digestive problems and immune system disorders. Moreover, in a paper published in a medical journal, it was determined that loud noises lead to elevated blood pressure, fatigue and loss of sleep. Ultimately, some university researchers noticed that stress caused by noise can lead to serious heart problems.

In a paragraph of FOUR sentences ONLY, summarize and paraphrase the above passage in answer to the following question:
