Read the following passage carefully, then answer the following questions:

Once upon a time, a farmer had a goose that laid one golden egg every day. The egg provided enough money for the farmer and his wife to help them with their daily needs. The farmer and his wife continued to be happy for a long time. But, one day, the farmer thought to himself, "Why should we take just one egg a day? Why can't we take them all at once and make a lot of money?" The farmer told his wife his idea, and she liked it.

Then, the next day, as the goose laid its golden egg, the farmer was quick with a sharp knife. He killed the goose and cut its stomach open, in the hopes of finding all its golden eggs. But, as he opened the stomach, the only thing he found was blood.

The farmer quickly knew his mistake and cried over his golden source. As the days went on, the farmer and his wife became poorer and poorer. How unlucky and how foolish they were!
