VI. Reading Comprehension (16 Marks)

Read the following Passage carefully, then answer the questions that follows:

There is a famous expression in English: "Stop the world, I want to get off!" This expression refers to a feeling of panic, or stress, that makes a person want to stop whatever they are doing, try to relax, and become calm again. 'Stress' means pressure or tension. It is one of the most common causes of health problems in modern life. Too much stress results in physical, emotional, and mental health problems.

There are numerous physical effects of stress. Stress can affect the heart. It can increase the pulse rate, make the heart miss the beats, and can cause high blood pressure. Stress can affect the respiratory system. It can lead to asthma. It can cause a person to breathe too fast, resulting in a loss of important carbon dioxide. Stress can affect the stomach. It can cause stomach aches and problems digesting food. These are only a few examples of the wide range of illnesses and **symptoms** resulting from stress.

Emotions are also easily affected by stress. People suffering from stress often feel anxious and have problems. They may have panic attacks. **They** may feel tired all the time. When people are under stress, they often overreact to little problems. For example, a normally gentle parent under a lot of stress at work may yell at a child for dropping a glass of juice. Stress can make people angry, moody or nervous.

Long-term stress can lead to a variety of serious mental illnesses. Depression, an extreme feeling of sadness and hopelessness, can be the result of continued and increasing stress. It is obvious that stress is a serious problem. It attacks the body. It affects the emotions. Untreated, it may eventually result in mental illness. Stress has a great influence on the health and well-being of our bodies, our feelings, and our minds. So, reduce stress: stop the world and rest for a while.

VII- Summary Making (6 Marks)

Read the following passage, then do as required:

Having a dog helps a child learn how to act responsibly. As a dog owner, the child must take care of the animal's daily needs. Therefore, being responsible for a dog also means taking care of the dog so that it stays healthy. Furthermore, the owner must take responsibility for the safety of the dog and the safety of the people it comes into contact with. If the child forgets any of these duties and responsibilities, or ignores any of the dog's needs, the dog will suffer. This teaches the child that his responsibility to the dog is more important than his desire to play with his toys, talk on the phone, or watch TV.

In a paragraph of **FOUR** sentences **ONLY**, summarize and paraphrase the passage in answer to the following question:

“How does having a dog help a child to learn?”

Answers must include only 4 of the following ideas:
